Agency Procurement: Generic Asset Ordering

Ordering Assets

Context: You will be using this document if you are attempting to purchase an Item that has been classified as needing an "Asset Tag" by the Assets division of F & A.

It is likely that you will not know this until the first Requisition you put in has been disapproved by Assets. They will send you to the Content Team from there. If a "Generic Asset" Item ID exists for what you are trying to buy, the Content Team will send you this document along with an Item ID that exists to cover the broad category of Item you are trying to buy, if any.

This document can also be used if you know you are trying to buy an Asset, but have not entered a Requisition for it yet.

Summary: Steps in **red** are different from a Standard ePro Requisition with Item IDs

Creating a new Requisition for a Generic Asset

- Create an **Epro Requisition**
- Find an **Item ID** from the **Catalog tab** ending in **"Generic Asset"** (In **Step 2: Add Items and Services**)
- **Add notes** in the **Line Comments** section to **describe** what you are buying **in more detail** (In **Step 3: Review and Submit**)
- **Select** a **Price** and a **Vendor** in the **Line Details** section (In **Step 3: Review and Submit**)
- **Finish** the ePro Requisition.
    - **Fill in Ship-To and Chartfield information.** If it did not default correctly
    - **Budget Check** the Requisition.
    - Use the **Review and Submit** button to **submit** the Requisition for **Approval**.

- Once the Requisition is Approved, copy it to a Purchase Order, then finish the Purchase Order as normal (referenced in the Agency Procurement Manual http://tn.gov/generalserv/purchasing/documents/agencyprocurementmanual.pdf)

Altering an existing Requisition to buy a Generic Asset

- Go into your existing **Epro Requisition.** Go back to **Step 2: Add Items and Services**
- Find an **Item ID** from the **Catalog tab** ending in **"Generic Asset"**
- Add the new Item ID or IDs as a new line, and delete your previous Lines.
- **Add notes** in the **Line Comments** section for your new line to **describe** what you are buying **in more detail** (In **Step 3: Review and Submit**)
- **Select** a **Price** and a **Vendor** in the **Line Details** section (In **Step 3: Review and Submit**)
- **Finish** the ePro Requisition.
  - ○ **Fill in Ship-To and Chartfield information.** If it did not default correctly
  - ○ **Budget Check** the Requisition.
  - ○ Use the **Review and Submit** button to **submit** the Requisition for **Approval**.

Once the Requisition is Approved, copy it to a Purchase Order, then finish the Purchase Order as normal (referenced in the Agency Procurement Manual
http://tn.gov/generalserv/purchasing/documents/agencyprocurementmanual.pdf

Process: Creating a New Requisition for a Generic Asset

1) You must first be logged in to Edison.

   a. After logging in, click the **FSCM** link under the Enterprise menu, on the left side of the page.

   b. Click on **eProcurement** from the left-hand menu.

   c. Then click **Create Requisition.**

2) Clicking on Create Requisition will bring up a new page, with a title saying **Create Requisition**. This page has links to required sections, grouped under three main tabs. These are numbered in a strip at the top; and the current tab will be highlighted in yellow.

Create Requisition

| | 1. Define Requisition | | 2. Add Items and Services | | 3. Review and Submit |

Specify requisition name, requester, and other information that applies to the entire requisition.

Step 1: Define Requisition

| 1. Define Requisition

1) To create a Requisition, the Define Requisitions tab should be highlighted in yellow. If not, click on Define Requisitions. Make sure the Business Unit and Requester defaulted in correctly.

    a. **Requisition Name** Click in the **Requisition Name** field and then type in the name. The name must include "Contract Request".

2) After naming your Requisition, click the Continue Button. [Continue]

Step 2:   Add Items and Services

| 2. Add Items and Services

3) The next step is to add items to the requisition.

4) The main **Add Items and Services** page has 7 tabs at the top, all showing different ways to create Item Lines on a Requisition. For Asset purchases, you will use the **Catalog** tab.

To search for items:

- First, click on the Catalog tab under the Search bar.

Create Requisition

	1. Define Requisition		2. Add Items and Services		3. Review and Submit

Add lines to the requisition, specifying the information necessary to procure each item or service.

Search: DO NOT USE THIS SEARCH BAR — Search

Catalog | Favorites | Templates | Services | Forms | Web | Special Request

- Next, make sure the **All Procurement Items** catalog is selected from the drop-down menu. This should show as the default option when the Catalog tab is selected.

Browse Catalog

*Select a catalog: All Procurement Items

☐ Left | Right ⊞ All Procurement Items

- Choose from available catalogs in the dropdown list
- Navigate categories by clicking folders
- View items in a category by clicking the category name
- Use the checkboxes to select categories to search below

- Underneath the catalog listing is the **Search Catalog** section. This contains fields to search by different listings. **This is the ONLY search field that should be used, NOT the one that's at the top of the screen.**

✸ If you have an Item ID (given to you by the Content Team)

- Type the first Item ID (obtained from the Content Team) into the **Item ID** field, then press the Search button. An example is shown below.

- The "Generic Asset" Item IDs have very general descriptions, and cover broad groups of items based on the NIGP code category they are included within. For example, the Item ID **1000106923 - Printer, multi-function or not otherwise classified. For microcomputer. GENERIC ASSET** can cover any multi-function office machine that has printing as one of its functions. This Item ID is intended to be used for purchase of any multi-function office machine that is not on contract and has printing as one of its functions.
  - *Keep this in mind when searching for Generic Assets. Many times, the specific "thing" you are searching for will not be in the list, but a category that "covers" that thing along with others will be.*

- If the item you need was located by the search, check the box next to the item to include the item on the Requisition. Then type the Quantity in the Quantity field.

	Quantity		Item ID
☐	4.0000	🛒 Add	1000007457

6) After inputting the desired quantity, click the Add (🛒 Add) button. Once added, the item and quantity will appear in the Requisition Summary box on the left side of the page, as shown below.

7) Repeat this process for all additional lines that must be on the requisition. After all the requested items appear in the Requisition Summary box on the left side of the page, click the **Review and Submit** tab located at the top right. You will now go to step 3, Review and Submit.

Step 3: Review and Submit
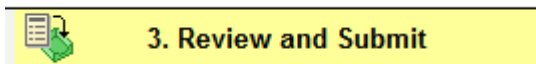

📋 **3. Review and Submit**

Reviewing and Submitting Requisitions:

The last step of the eProcurement process is the **Review and Submit** page. It contains a summary of the Requisition information, along with notes and Justification. The first thing you must do on this page is enter your Document Type. For Contract Release Orders, use **DCR**. If this is a One-Time Purchase of an Asset, use **LPA.**

1) You can now add any additional information to the **Line Comments** section. There is a Comments icon for each line, located on the far right of the page. Click the Comments icon (💬) to go to the Comments screen, where you can either type information directly into the field or add supplemental documents as attachments.

Note: If you are ordering a **Generic Asset**, you must include a full description of the item in the **Line Comments** section**.**

*Note: If you cannot see the "**Price**" field (**ONLY** on Generic Asset items), you will need to contact the Content Team to see if the item is set up properly. If the item is set up properly (as confirmed by the Content Team), you will need to contact the Edison Help Desk to have the correct Requester Setup added to your access.

- o **Price:** Change the price to reflect the vendor's true price.
- o **Vendor:** Select the vendor to be used.
- o **Vendor Location:** Select the correct Vendor Location.
- o **Vendor Item Number:** Enter the correct Vendor Item Number.

3) Then press the OK button at the bottom of the page to return to the main Review and Submit page.

4) Once all attachments are included for each line, review the lines to make sure they are correct. To view the entire line table, scroll to the right using the scrollbar at the bottom of the screen.

## Possible Changes:

Altering Quantity:

The Line, Description, Vendor Name, Quantity, UOM, Price and Total are all pulled over from Step 2. If changes need to be made to the Quantity, click on the Quantity field and type in the new amount.

Deleting Lines: To be used if you are altering an existing Requisition to include Generic Asset IDs

If you have added Item IDs to an existing Requisition: After adding the new lines, you must deleted the old one. In Step 3: Review and Submit, click the check box next to the previous line you want to delete.

Then press the Delete button.
This will delete the line. If you only have one line, you cannot delete it. **Once a line is deleted it cannot be recovered. You must re-enter the line from step 2, (Enter Line Items) if you delete it and then need it back.**
This can also be used to delete any mistakenly-entered lines.

Sections to Review/Modify:

Shipping Addresses:

To modify a Shipping Address, you must first expand the table by using the Expand Section button. This will show the ***Ship-To** field. It may be blank, or may default to PMFMSHIPTO, both of which must be changed.

o   Click the Lookup Icon (🔍) next to the Ship-To field. This brings you to the Look Up Ship To page.

> o   Use the Look Up Ship To screen to find your specific Ship To location. Type part of your building name or address into the **Description** field. Change the drop-down from "begins with" to "contains". Then press the Look Up button. This will pull up a list of agency locations.

Verify that the information is correct. If it is not, choose a different Ship-To location. From here, you can continue on with the Requisition.

Chartfields:

All Chartfield ("Accounting") information should default in based on the User's Profile preferences.

Each of the fields listed below must have information populated in them.

- o Location: Found on the Chartfields1 tab.
- o GL Unit: Found on the Chartfields1 tab.
- o Account: Found on the Chartfields1 tab.
- o Fund: Found on the Chartfields2 tab.
- o Department: Found on the Chartfields2 tab.
- o Location CF: Found on the Chartfields2 tab.

If this is not the case, this means one of two things. Either the user's setup is incorrect, or the user is a "Buyer" for many separate locations at an agency (Centralized Procurement).

- • If the user's setup is incorrect, and they must contact the Edison Helpdesk to request that their access, rolemapping and preferences be corrected. They may need to work with their Agency Fiscal Office and Agency Security Administrator for more information on this process.
  - • If the user is a Centralized Procurement officer for many locations in their agency, they will have to work with their Agency Fiscal Office to obtain all the correct Chartfield information for each location they buy for.

The Central Procurement Office is not able to view, access, change or review individual Account Preferences, and does not have access to what the "correct" Account/Chartfield information should be for any given location. This is the sole responsibility of the Agency and Agency Fiscal Office.

 Repeat as necessary for all lines

Justification/Comments:

This section is located at the bottom of the Review and Submit page, and is used to record the justification for ordering an item from a contract. Click in the field and begin typing.

You must include:

- "Submitting Order for Asset Item." (This must be at the beginning of the comment)

- A detailed explanation of what the request is for. This would be something like "This is an order from Contract for Security Guard Services".

- Your contact information, including name and phone number.

Once all this information is completed, you can review the Justification as a whole by checking the "Expand Section" button ( ).

After the justification section is completed, you must Budget Check the document.

Budget Check

1) To Budget Check the Requisition, press the "Check Budget" button. This must be completed in order to pre-encumber funds. The Budget Check Status will return as "Valid" once Budget Check is completed.
2) After Budget Check, press the "Save and Submit" button to send the Requisition for Approvals.
3) Once the Requisition has been saved, a screen appears showing the approval path. It will have a **Requisition ID** number underneath the Requisition Name. This is used to search for the Requisition if needed later. This screen also shows the Approval paths.

Approvals

a) To view more information on the approvers, click on the "Multiple Approvers" (Multiple Approvers) link. This will bring up a window with a list of all the approvers currently assigned to the Requisition.

b) T o add additional approvers, click the Insert Approver button. (⊟⊞) This will bring up a new window. Select the User ID of the approver to be added by clicking the Lookup button (🔍) next to the User ID field, then selecting the User ID from the list. *The Approver you wish to add must be in the system as an Approver before you can select them.*

  i. Use the Radio Buttons below the User ID Field (⊙) to select if the person will be added as an Approver or Reviewer. Reviewers receive a notice through their Workflow to review the item, but are not required to approve. Approvers *must* approve to continue the process.

  ii. After selecting the Approver's User ID and their function (Approver or Reviewer), click the Insert (Insert) button. This returns you to the main approval screen.

Requisitions must pass all approvals before being sent on to create a Purchase Order.

✸ **Note on Approvals:** The eProcurement Requisition process is being taught as the main method for all forms of Procurement because it automatically builds necessary approvals based on the item's NIGP code, the dollar amount of the purchase and the business unit. These approvals are set up in Workflow by Edison, and include all ***commodity approvals***.

✸ Any problems with Workflow need to be called in as a ticket to the Edison Helpdesk (741-4357).

To view the status of the Requisition, go to the Manage Requisitions page. Click eProcurement, then Manage Requisitions.

Scroll down until the Requisition number is found, or use the Search function to search by the Requisition ID (**Requisition ID:** [   ] 🔍).

The Approval Status and Budget Check status of the Requisition are listed in this table.
